

PSD AT HORSHAM COLLEGE

The Horsham College Program for Students with Disabilities aims to:

- Maximize student growth in education and learning.
- Ensure that students with disabilities are valued and given opportunities to participate in all aspects of school life.

The Program provides a range of initiatives and supports the following objectives:

- Learning; academic, personal and interpersonal.
- Engagement and wellbeing; motivating and encouraging students to participate fully in their education and wider school life.
- Pathways and transitions; guiding students in the selection of appropriate pathways through school and into the broader community, including work experience, school based apprenticeships and traineeships.

Student potential for growth and development is closely monitored and reviewed through regular student support group meetings. Stakeholders including parents and teachers, evaluate student progress, set goals and make necessary changes to learning programs to effect positive outcomes.

WE SUPPORT STUDENTS WITH SPECIAL NEEDS:

- in class
- during lunch and recess
- by assisting with organizational and time management skills
- during work placements
- by providing knowledge of a student's needs to teaching staff so that the curriculum can be delivered in the most appropriate way
- teaching and developing important social, personal and life skills
- communicating with parents via phone, communication book, diary, email, Student Support Group meetings

PSD helps all students at Horsham College by :

- fostering tolerance and understanding
- providing another adult in class
- engendering a culture of team work in the classroom
- helping students recognize their own strengths and the value of empathy and caring for others
