Printing on your iPad

1) Tap on the **Upload** icon.

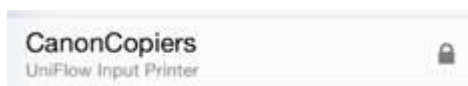

2) Tap **Print**

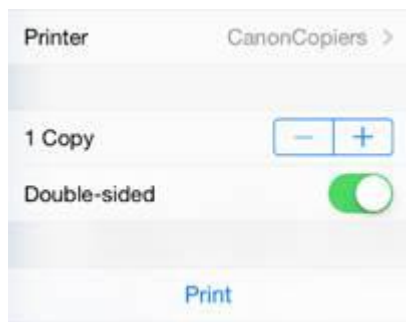

3) Tap on **Select Printer**

4) Tap on **CanonCopiers**, at this point you will be asked to enter in your Curriculum Network username & password. This is the same as your EWS & photocopier password.

5) All that is left to do is tap on **Print**. Find your nearest photocopier and login as per normal to collect your print jobs.

These are basic instructions on how iPad printing can work in Safari but similar steps will apply in most other apps.
